

PRIVATE PLACEMENT PROGRAM

PPP

Private Placement Programs (PPP)

In the institutional finance world of 2026, Private Placement Programs (PPP) will be managed through highly specialized platforms that provide access to exclusive trading environments (arbitrage trading in banking instruments).

The often-cited institutional threshold will also be around \$100 million in 2026.

In this case, we have access to platforms that offer small-cap programs or participation pools.

Small Cap Private Placement Programme (PPP)

These are exclusive "buy-sell" trading programs that often generate high returns through bank guarantee trading (SBLCs).

Barriers to entry: While classic PPPs often require \$100 million, **small-cap versions** offer an entry starting at **\$350,000.

Exclusive Private Placement Programs (PPP) for Strategic Investors

Whether invested through cleared cash or banking instruments such as BG/SBLC, our Private Placement Programs provide qualified investors with secure access to institutional trading environments with a focus on capital preservation and consistent performance.

We offer both cash-based and instrument-based pathways to exclusive, high-yield PPPs designed for sophisticated investors seeking structured, compliant and results-oriented opportunities.

Our best-in-class cash PPP

We offer carefully structured private placement programs for qualified investors seeking access to high-yield trading platforms.

Clients can participate in two main ways:

- ❖ Cash-based PPP, starting at \$350,000
- ❖ Instrument-based PPP, starting with \$50 million via BG/SBLC

Both ways offer institutional trading opportunities with strong compliance, principal protection, and competitive returns.

Executive Programme

- ❖ Entrance fee: \$350,000 – \$2,000,000
- ❖ Historical average monthly return: 3% - 5%
- ❖ Expected annual return: 48% - 70% (depending on market conditions and asset performance)
- ❖ Risk Level: Moderate

The Executive Program is ideal for investors looking for a balanced investment strategy with moderate risk. This program focuses on a diversified portfolio that ensures steady returns and strategic growth.

Platinum Program

- ❖ Participation: \$2,100,000 – \$30,000,000
- ❖ Historical average monthly return: 6% – 8%
- ❖ Expected annual return: 72% - 96% (depending on market conditions, asset allocation and strategy)
- ❖ Risk Level: Moderate

The Platinum program is designed for discerning investors looking for significant returns. With a focus on strategic asset allocation and diversification, this program aims to maximize returns while effectively managing risk.

Institutional Access: Instrument-Based PPP

For large investors with banking instruments such as BG or SBLC.

Sovereign program (instrument-based)

- ❖ Face value: \$50,000,000 and above
- ❖ Instrument Type: Standby Letter of Credit (SBLC) or Bank Guarantee (BG)
- ❖ Instrument Status: Fully Owned; No leased instruments accepted
- ❖ Delivery: SWIFT MT760 from a globally rated top 25 bank
- ❖ Returns: Mirror's Platinum Program (6% – 8% monthly, 72% – 96% annually)
- ❖ Risk Level: Moderate

The instrument-based program is designed for sovereign corporations, foundations, foundations, and UHNWIs that manage institutional instruments.

Fund management and profit access

- ❖ Clients must transfer funds to a designated platform account or paymaster during onboarding. No capital is held in the client's private bank account during the program.
- ❖ Proceeds are accumulated monthly and are visible via our secure investor portal. Principal and interest are usually withdrawn at the end of the program (12 months), unless otherwise agreed.

Why choose our investment programs?

- ❖ Tailored strategies: Each program is designed to align with your financial goals and ensure a personalized investment experience.
- ❖ Expert management: Our team of financial experts continuously monitors market trends and adjusts strategies to optimize performance.
- ❖ Transparent operations: We believe in complete transparency and provide regular updates and detailed reports on your investment performance.
- ❖ Secure and compliant: Our programs adhere to the highest standards of financial security and regulatory compliance.

Other investment programs

In addition to our PPP offerings, we offer a range of other investment options tailored to a wide range of financial needs. Whether you're interested in real estate, stocks, digital assets, or alternative investments, our team will guide you through the entire process.

Real estate investments

Gain access to institutional-grade real estate projects, including residential developments, commercial real estate, and income-generating assets in key global markets. Our real estate investments are structured to offer value appreciation, stable rental yields and long-term portfolio diversification. We assist investors with acquisitions, management and exit strategies tailored to their investment horizons and liquidity preferences.

Equity investments

Participate in equity investments through direct equity holdings, private equity placements or structured, equity-linked products. We focus on high-performing sectors, including technology, healthcare, and infrastructure, to deliver consistent returns. Our stock offerings cater to both growth-oriented investors and those seeking dividend-based income, with the opportunity to invest in both the primary and secondary markets.

Alternative investments

Discover unique investment opportunities, including commodities, private equity and venture capital, designed to deliver higher returns with different risk profiles.

Investing in digital assets and crypto

We offer selected investors access to structured crypto investments in Bitcoin, Ethereum and regulated digital asset portfolios. These programs provide institutional transparency in blockchain markets with strong risk control, secure custody, and monthly performance reporting. Ideal for investors looking for diversification with a modern edge.

- ❖ Minimum investment from \$200,000
- ❖ Managed via licensed custodians and regulated exchanges
- ❖ Monthly performance tracking via the investor portal
- ❖ Optional capital preservation structures
